## 2. Adopt a Slum

### **Objective:**

1. Setup a system for waste management, so as to prevent daily dumping of unsegregated waste at wrong places such as nullahs, open playgrounds and streets.
2. Bring awareness pertaining to health issues and spread of illness due to poor hygiene.

### **About the offering:**

- Awareness includes the importance of 3 level segregation. To facilitate this, , a kit consisting of a bin (for domestic hazardous waste), a bag (for dry waste) and a waste segregation poster will be provided, while the existing bin will used for storing wet waste.
- Door-to-door collection of segregated waste. This will be done by employing 2 women for providing pickup service in a pushcart

### **Impact:**

- Improved sense of cleanliness and hygiene in the area adopted
- Reduction in the quantity of waste going into landfill
- Employment provided for 2 waste pickup ladies and 1 supervisor

- Reduction in regular outbreak of disease
