RNISARG FOUNDATION

MESSAGE FROM THE FOUNDER

I wanted to take a moment to thank you in supporting RNisarg Foundation. Your generosity has made a significant impact on the communities we serve, and we are grateful for your dedication to our mission.

2022 has been a year of great progress in a number of areas, including women's health, biomedical waste management, awareness and education on waste management. Our Sakhi program has worked to address the important issue of women's menstrual health, providing education and resources to support the health and well-being of women in our community. Our youth are the future leaders of the world and it is up to us to educate and inspire them to take action in protecting the planet. There are many ways to ignite the minds of young people to conserve the environment – Prarambh, our school education program, has provided valuable resources and support to students and teachers. Our Biomedical Waste Management project is especially important living in a world impacted by COVID-19. This program has helped to reduce the negative impact of improper waste disposal on the environment and public health, and has contributed to the overall sustainability of our community. The success of our biomedical waste management initiative has also had a ripple effect in the community. By setting an example of responsible waste management, we hope to inspire others to adopt similar practices, further enhancing the sustainability of our community.

None of this progress would have been possible without the support of our dedicated team and the generosity of people like you. On behalf of the entire team at RNisarg,

I want to extend our heartfelt thanks for your continued support and commitment to our mission. We look forward to the opportunities and challenges that the new year will bring, and we hope you will continue to join us in our efforts to create a more sustainable and equitable world for all.

VEENA ANGADI

Co-founder, RNisarg Foundation

ABOUT US

RNisarg Foundation was started in the year 2016 by doctors who are trained to deliver the best with limited resources at disposal. Medical training and expertise in this field enabled them to analyze, prioritize and design out of the box solutions to give best results in toughest situations.

With the vision to make cities livable, our focus areas chosen were:

- Waste
- Road safety

Both of these issues have deep rooted connections with the planet's health and thereby human's health.

So far, RNisarg's journey to build sustainable cities has impacted more than 1,00,000 citizens and conducted 1,000 sessions in multiple cities.

OUR VISION

A world where every woman has the resources and abilities to live a meaningful life

OUR MISSION

To provide skills and knowledge to women in need through trainings and workshops, to transform them into independent, confident and contributing members of their families and communities

AT RNISARG
FOUNDATION,
INNOVATIVE
PROJECTS ARE
DESIGNED TO
BRING
UNKNOWINGLY
RIGHT
BEHAVIORAL
CHANGE IN THE
SOCIETY.

PRESENCE

Over the years, we have expanded our presence in various cities. It is our endeavour to reach every part of the country and be a source of support in building sustainable cities!

“The environment is where we all meet; where we all have a mutual interest; it is the one thing all of us share.”

-Lady Bird Johnson

PROGRAMS

- **14** schools participated for the year 2021-2022 from various locations like Thane, Bangalore, Pune, Hyderabad
- **4576** students were covered online

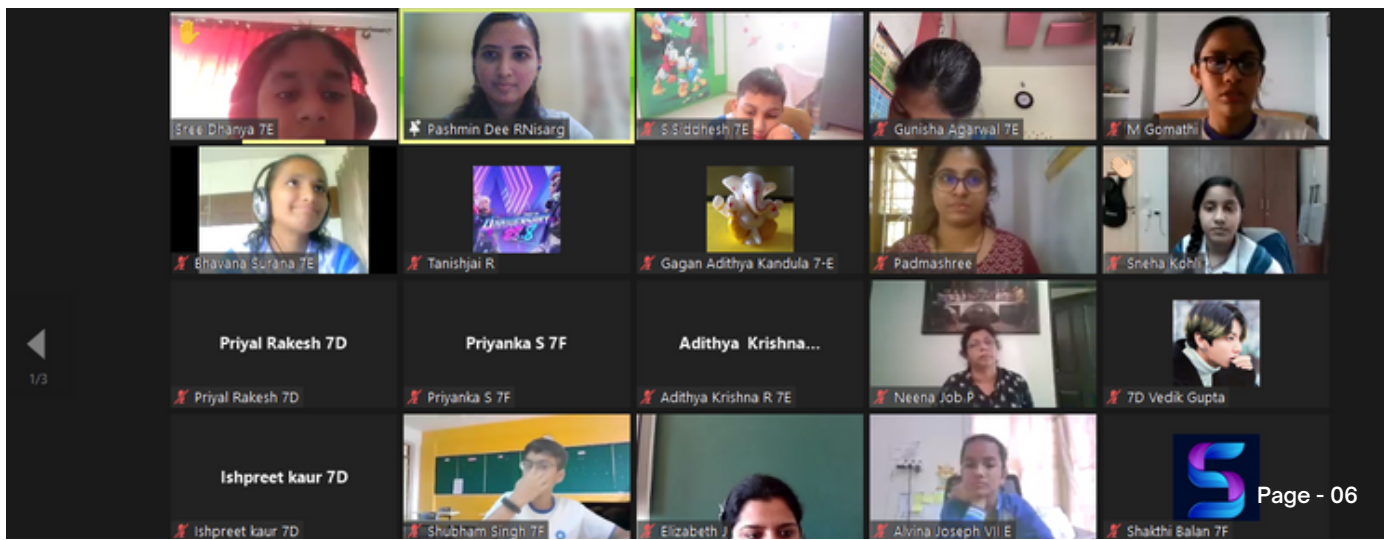

PRARAMBH

This project was launched in the year 2018 with a mission and vision to educate, empower and encourage the educational institutions and students for the two major projects of RNisarg:

- Follow the Monkey (Waste Management Project)
- S-Miles (Road Safety Project)

More than 25 educational institutions are registered under Prarambh, which is providing an outreach of 50,000 students and staff, and a reach to 6 lakh citizens across multiple cities.

**DUE TO COVID-19,
PROJECT
PRARAMBH WAS
FULLY
OPERATIONAL
ONLINE VIA ZOOM
& GMEET
PLATFORMS!**

S-MILES: SAFETY FOR MILES

A project for road safety initiated to reduce the risk of road traffic injuries and death through awareness and coordination.

All the road users like pedestrians and drivers are made aware of their commitment to safety for themselves and others.

The implementation and awareness are done through skits, pledges, posters and active participants of the citizens in the locality.

KNOW YOUR PLASTIC

Know Your Plastic Contest Rnisarg Foundation in collaboration with Maharashtra Pollution Control board conducted competition on Plastic education. The motive was to make students aware about plastic, and to check their knowledge about the same. More than 1000 Students registered and participated. The winners received hampers and exciting prizes.

Know Your Plastic

SAKHI

Launched in 2019, Proehct Sakhi is aimed to promote a waste free menstrual practice and support women in living a healthy lifestyle.

RNisarg creates awareness & support women to make sustainable menstrual product choices for themselves.

Also, menstrual waste is a burning environmental issue since large numbers of women are switching to use disposal-able sanitary pads, and commercial disposable sanitary pads which are available in the market are non-biodegradable, thereby causing pollution in air, soil and water.

Women of urban slums of Thane, Rural areas of Satara Adivasi Areas of Karjat and Palgar were supported thurgh this project.

An Initiative of RNisarg Foundation

- **5000+** women educated
- **2200** cups provided
- **70%** cupverted people in urban slums
- **100** cupverted people in rural & adivas
- **0** menstrual waste generation from cupverted women in the coming years
- **0** monthly expense on menstrual product for next **10** years of cupvrted Women
- **20** sakhi trainers made & trained

GREEN PHARMACY

It is well known that pharmaceutical products which are made for human health should not cause harm to the environment because of unsafe disposal. The strict safety rules applied for drugs meant for human consumption should be extended to expiry drugs and its packaging too. For the safe disposal of unwanted, expired and unused medicines from households, a pilot project under Swaccha Saarathi fellowship, Govt of India is being done in Thane city.

The main objective is to safely dispose of unwanted, expired and unused medicines from households.

- **10000+** Households Educated on safe disposal of pharmaceutical waste

Total Green Pharmacy Bin Location:

- **15** (9 Residential & 6 Drop off location)
- **650 kgs** Green Pharmacy waste collected and Diverted From going into the Landfill

FIGHT AGAINST COVID

The second wave of COVID-19 caused a panic all over the world, and the outbreak was the worst-deadliest than the first wave. Millions lost their lives, shortage of oxygen supplies and lack of infrastructure.

RNisarg joined hands with local bodies to distribute oxygen concentrators, and provided doctor support for COVID helpline.

- **100** days of tele-consultations done
- **6460+** COVID patients and their families consulted

Total Green Pharmacy Bin Location:

- **15** (9 Residential & 6 Drop off location)
- **650 kgs** Green Pharmacy waste collected and Diverted From going into the Landfill

TESTIMONIAL

It was an honour for Knexir Consultants through our CSR initiative to have been associated with RNisarg's Project Sakhi. We got this opportunity to participate in your women empowerment program that distributed menstrual cups to support underprivileged women for Sustainable Menstrual Health & Hygiene. RNisarg's visionary objective was backed by a pioneering and exemplary effort by your team of Doctors, Gynecologists & trainers who worked selflessly during the pandemic to help the community to maintain proper hygiene and a clean environment as well.

We are delighted that we could be a part of this project and could contribute in a small way towards maintaining a clean environment and educating the importance of health and hygiene to the underprivileged women. We wish RNisarg all success in their future endeavors.

Ms. Amruta Desai
Director
Knexir Consultants Pvt Ltd

GOALS: 2022

➤ To launch project Sakhi Adivasi and reach 3000 Adivasi women

➤ Green Pharmacy: To Educate more and more citizens, install green pharmacy bin in as much as possible societies, PHCs, and other drop off locations

➤ Prarambh: To Build digital prarambh on Edu-Tech platform, so that we can reach to PAN India
